OF INTEREST TO FARMERS.

A valuable Medical Treatise.

The edition for 1889 of the sterling Medical Annual, known as Hostetter's Almanac, is now ready, and may be obtained, free of cost, of druggists and general country dealers in all parts of the United States, Mexico, and indeed in every civilized portion of the Western Hemisphere. This Almanac has been issued regularly at the commencement of every year for over one-fourth of a century. It combines, with the sound practical advice for the preservation and restoration of health, interesting reading, and the calendar, astronomical calculations, chronological items, &c., are prepared with great care, and will be found entirely accurate. The issue of Hostetter's Almanac for 1889 will probably be the largest edition of a medical work ever published in any country. The proprietors, Messrs. Hostetter & Co., Pittsburgh, Pa., on receipt of a two cent stamp, will forward a copy by mail to any person who cannot procure one in his neighborhood.

No Profit in Wintering Poor Animals.

Now is the time to get rid of the poorer animals. It will not pay to winter them, as better animals will give larger returns for shelter, care and feed. It is not economy to keep a poor animal through any season; but it is most extravagant to keep it through the winter. It is the height of folly in stock raising to sell the best and keep the worst. True, the best bring the largest prices; but if you sell the best and keep the worst, soon your work will be no better than your worst is now, and your worst will such that the more you have the poorer you will be. You, by this plan, constantly make your animals poorer; and as the stock raiser makes his animals poor he makes himself poorer. It he keeps up the process, bankruptcy is as sure as fate. The opposite policy is the winning policy. Sell the poorest and retain the best. And sell enough of the poorer animals that you may buy a few better than the best you now have. This is making your animals constantly better and yourself richer. Soon your worst will bring as much as your best now. If you have not pure-bred animals, sell enough scrubs or grades to buy an animal of each sex, pure-bred. Hold fast to the full-blooded produce and to the highest grades. Almost before you are aware of it you will have only pure-bred animals. If once we start with pure-bred animals, the increase of breeding makes us rich in flocks and herds of the best blood in what, when the goal is reached, seems a very short time.

Farm and Garden Notes.

In developing cows for butter the feeder should be sure that he does not overfeed, but as he finds they eat with a good appetite he may add a little more to each feed, and so continue gradually to increase the feed as they will bear it. Their power of digestion will increase, and he may gradually increase the milking capacity of his cows and their production of butter. The skill of the feeder has much to do with the result.

A Western dairyman has hit upon a very simple plan of warming water for his stock to drink in winter. He put an iron plate, say eighteen inches square, on the bottom of his water tank, cutting away the wood, of course, where the iron was. Under this plate he uses an oil stove. He says 10 cents worth of oil a day would warm the water for sixty cows up to 70° or more.

There is no necessity for pampering a bull and allowing it to become vicious. It can be made to work, if desired, in providing power for fodder-cutters, grain-mills, &c. It is done in Europe, and is practicable here.

Aged horses should have ground grain at all times or they will not thrive, owing to their inability to masticate the whole grains. Where a horse is subject to heaves it is best to moisten all the chopped or ground food.

Feeding red pepper to laying hens is not beneficial unless given very moderately, and not often than three times a week. It acts as a temporary stimulant, but if given continually causes injurious effects.

No flower is more popular than the aster, and few have held so high a place in popular esteem for so many years, and it is still growing in favor. For an autumn show of flowers we have not its equal.

Is Consumption Incurable?
Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with abscess of lungs, and friends and physicians pronounced me an incurable Consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made."

Jesse Middewart, Decatur, Ohio, says: "I had it not been for Dr. King's New Discovery for Consumption I would have died of Lung Trouble. Was given up by doctors. Am now in boat of health." Try it. Sample bottles free at T. D. Thomas' Drug Store.

Useful and Suggestive.
Barberries make an exceedingly pretty garnish, and may be very easily preserved for this use, as they need only to be placed in a jar with brine to keep indefinitely. Green grapes, picked while the skins and pulp are still tender, may be pickled in the same way, and have a piquant flavor that angers others.

Red coloring, which is often required for jellies, ice cream, syrups and icings for cakes, is made by boiling fifteen grains of powdered cochineal in half a pint of water, to which a piece of alum the size of a hazel nut and a drachm and a half of cream of tartar are added. Boil all together slowly for half an hour, then strain and bottle.

A good breakfast dish may be made with the remains of any old cod fish. Press them from bones and bake into quite small pieces, add pepper, salt, a little bread crumb and a cold potato and two or three well-beaten eggs; form into balls or small oval cakes, and fry a light brown in boiling butter; drain them by laying on paper. Cold tongue grated and laid pretty thickly on hot buttered toast is also a very good breakfast dish.

Ladies, when they purchase kid gloves, should examine separately the fingers of each glove and take note that have broken stitches. Stretch the seams carefully between the thumb and forefinger; if the kid comes away from the thread, leaving a white seam, that is not the pair for you. Elastic kid generally wears well. Stiff and unyielding skins are worthless. They neither fit nor wear well. Narrow gloves never fit or wear well, and disfigure the hand instead of beautifying it. Short fingered gloves deform the hand.

My Poor Back!

That "poor back" is held responsible for more than its share of the sufferings of mankind. If your dog bites a man who kicks it, do you blame the dog? On the same principle the kidneys utter their protest against nervousness, impure blood, and result of effete matter retained in the back; the kidneys are diseased. "Not yet," but they will be the blood purified, and the constipation of kidney troubles, and Paine's Celery Compound removes them quickly. Compound removes them quickly, effect, it also strengthens the weak kidney, making it most inflexible in curing all diseases of the nerves and kidneys. If your hopes of cure have not been realized, try Paine's Celery Compound; it gives perfect health to all who complain of "their poor backs." Price \$1.00. SOLD BY DRUGGISTS. SEND FOR ILLUSTRATED PAPER.

WELLS, RICHARDSON & CO., Proprietors, BURLINGTON, VERMONT.

WOP PLASTER
Eases Pain Instantly Strengthens Weak Nerves. COMPLETELY AND SPEEDILY CURES Back, Neck, Stiffness, Rheumatism, Neuralgia, Sciatica, Headache, Toothache, Earache, and all other pains.
